DOCUMENT DT-LEGAL-010 · LAST UPDATED AUGUST 15, 2026

STATUS
ATTORNEY REVIEW DRAFT

PUBLICATION / USE
BLOCKED UNTIL AGE/SCOPE RULES VERIFIED

Scope warning. The public site markets skincare to “teens,” but Dew Theory’s operating state, license/facility details, minimum service ages and procedure-specific rules are not yet confirmed. This form does not authorize a service that is prohibited by law, outside professional scope or unsuitable for the minor.

3. Minimum age and treatment restrictions

[BUSINESS DECISION REQUIRED AFTER STATE/BOARD REVIEW: minimum age for facials; minimum age and any special restriction for extractions, chemical peels, dermaplaning, devices/modalities and virtual consultations; whether guardian presence is required.]

Dew Theory may refuse or postpone a service if the client's age, condition, guardian authority, consent status, or requested procedure does not satisfy law, professional rules or safety protocol.

4. Consent to lawful aesthetic service

I authorize Dew Theory to provide the identified aesthetic service to the minor only after the provider confirms it is within lawful scope, screens for relevant contraindications and explains the material nature and reasonably foreseeable risks of the service. I understand that this consent does not compel the provider to perform a service.

Parent/guardian initials: _____

5. Health, medication and contraindication information

I agree to provide information that is materially accurate to the best of my knowledge when Dew Theory asks about relevant allergies/sensitivities, active skin irritation or infection, prescription skincare, medications, recent procedures, sun exposure, reactions or other information reasonably necessary for service safety.

I understand Dew Theory does not diagnose disease or alter prescription medication and may refer the minor to an appropriate healthcare professional if a concern is outside aesthetic scope.

6. Product recommendations

I understand Dew Theory may recommend or sell cosmetic skincare products. Product recommendations do not guarantee a result and do not replace medical advice. The minor and guardian should follow product labeling and any lawful, product-specific aftercare instruction.

7. Privacy and consumer health data

Information about a minor's skin, medications, treatment history, reactions and photographs can be sensitive. Dew Theory will handle it under the Privacy Policy and, where applicable, the Consumer Health Data Privacy Policy. Dew Theory should collect only information reasonably necessary for the service and should not use minor health data for targeted advertising.

For a child under 13, Dew Theory must not knowingly collect online personal information unless the production flow satisfies COPPA or another legally valid process. **[BUSINESS DECISION REQUIRED: age-screening and under-13 handling.]**

8. Service-use photographs

Service-use photographs are authorized only if necessary for the requested service and if the separate Consultation Photo & Intake Authorization is completed. Treatment consent alone is not marketing permission.

Service-use photo authorization completed: ☐ Yes ☐ Not applicable

9. Optional marketing photographs of a minor

No marketing/publicity use of the minor's image is authorized by this form. Any proposed marketing use requires a separate, optional, affirmative authorization specifically reviewed for minors. Declining marketing use must not affect ordinary service eligibility.

10. Minor acknowledgment / assent

Where age-appropriate, I have had the service explained to me in understandable language. I have been able to ask questions. I understand I can tell the provider to stop the service.
